PROFESSIONAL SUMMARY

AI Software Engineer with 3+ years of software engineering experience building production backend and voice AI systems. In 2025, joined Event Tickets Center's Innovation team, architecting multi-agent platforms on LangGraph, Google ADK, and LiveKit while cutting database costs by an estimated 8x. Skilled in Python, Go, PostgreSQL, and BigQuery.

EXPERIENCE

Event Tickets Center

Oct 2025 - Present

AI Software Engineer, Innovation Team

Denver, CO

- Leading design of a self-serve conversational-AI platform (LiveKit, GCP) with PCI DSS-compliant native payments.
- In Q2 2026, architected a three-agent real-time voice AI system (Google ADK) with a custom event bus and observability stack.
- Expanded the AI call center from sales-only to full booking-lifecycle support across three specialized agents.
- In Aug 2026, built a Postgres-to-BigQuery archival pipeline that cleared a 27,000-conversation backlog with zero data loss.
- Cut ongoing database costs by an estimated 8x by capping unbounded growth to a rolling 30-day retention window.
- Shipped a production LangGraph voice sales agent handling live hotel bookings and payments via Twilio and Stripe.
- Built latency-critical background worker services and APIs in Go (Gin, Fiber) supporting the AI agent infrastructure.

Clickmint

Nov 2022 - Jun 2025

Technology Strategist

Orlando, FL

- Developed and deployed marketing funnels integrating Zapier, Salesforce, OpenAI, and TikTok APIs, driving a 930% rise in interaction rates.
- Built a Python scraper covering 5,000+ small businesses and an NLTK/OpenAI cold-email system, lifting open rates by 40%.
- In 2024, engineered custom behavioral tracking and analytics, driving a 22% lift in conversion and a 30% cut in manual processing.

Fiverr/Upwork (Freelance)

May 2020 - Nov 2022

UI/UX Specialist

Remote

- Redesigned UIs for 15+ e-commerce stores (Shopify, Etsy), lifting conversion rates 22% and cutting bounce rates 30%.
- Built front-end solutions in React, Vue, and Shopify Liquid; shipped a "Bundle & Save" feature that doubled a client's revenue in 3 months.

EDUCATION

Florida State University

Aug 2024

Bachelor of Science in Computer Science, Minor in Mathematics

- Cumulative GPA: 3.4/4.0
- Awards & Honors: Florida Medallion Scholarship Recipient valued at over \$10,000

PERSONAL PROJECTS

Truffle: Personal finance dashboard with a customizable drag-and-drop widget grid, live bank-account sync (Plaid), and Claude-powered insights (React, Next.js, Prisma, PostgreSQL, NextAuth, Anthropic SDK)

PitchPAL: Web app for voice-to-voice AI interactions to improve cold calling and objection handling skills (React, Next.js, OpenAI, RickyVAD, Convex)

GPT-DEV: Reconstructed a character-level language model inspired by "Attention is All You Need" and OpenAI's GPT-2/GPT-3 (LLMs, GPTs, N-gram models, Python, PyTorch)

SKILLS

AI/Voice: LangGraph, LangChain, Google ADK, LiveKit, OpenAI API, PyTorch, NLTK, Scikit-learn, TensorFlow, Twilio, Stripe

Backend/Cloud: Python, FastAPI, Flask, Django, Gin, Fiber, PostgreSQL, SQLAlchemy, Alembic, BigQuery, Google Cloud Platform, Terraform, AWS, Microsoft Azure, REST APIs

Languages/Frontend: JavaScript/TypeScript, Go, C++, C#, C, Java, SQL, React, Next.js, Vue, HTML/CSS

Other: Git, Figma, Webflow, Framer • Portuguese (Fluent), Spanish/French/Italian (Conversational)
